MEMORANDUM FOR: APD PANEL

SUBJECT : Termination of Project P-103, Actuators Indexing and Cataloging and redesignation of Project P-102, Transducers Indexing and Cataloging.

Since [redacted] has been handling these two projects as one combined index, and since the Office of Basic Instrumentation, National Bureau of Standards, intends to continue handling the projects as one combined index, it is suggested that Project P-103 be terminated and that the title of Project P-102 be officially changed to "Transducer and Actuator Index".
